## **The Lost Florentine Diamond**

A popular commercial boasts, "Diamonds are forever!" Although one of the hardest substances known, a diamond can be cut, shaped, even crushed. It can also be lost.

In the late 15th century, one of the world's greatest diamonds was found in India and eventually became known as the Florentine Diamond. It registered an unbelievable weight of over 137 carats. In today's currency this one diamond would be worth well over twelve million dollars. Over the years, the Florentine Diamond passed from owner to owner until the late 1800's. At that point, the diamond vanished, never to be seen again.

No, a diamond is not forever. But a child of God is. That's because eternal life, purchased by the precious blood of Christ, can't be cut, crushed, destroyed, or lost.

### **1 Peter 1:18-19**

**<sup>18</sup> For you know that it was not with perishable things such as silver or gold that you were redeemed from the empty way of life handed down to you from your ancestors, <sup>19</sup> but with the precious blood of Christ, a lamb without blemish or defect.**

I love you all,

Tim
