You Are the "Fiber Optic Light" Of the World

Humans are much like a single strand of a fiber-optic cable. Like the optical fiber, our existence is meaningless unless we are conducting light. And like the optical fiber, none of us have any light of our own. There is only one source of light and that's Jesus.

Most optical fibers are called "end-glow" because light is supposed to come out of the end and not the sides. If an "end-glow" fiber allows light to escape from the sides it is because it has been damaged. When Christians are "damaged" by hardship, pain, or suffering, the Light inside comes out in the direction of that pain.

Likewise, as we allow God to use us, He shines through us in ways that allow the light to reach others who have experienced the same pain.

John 8:12

When Jesus spoke again to the people, he said, 'I am the light of the world. Whoever follows me will never walk in darkness, but will have the light of life.'

Like the children's song says, *"This little light of mine, I'm gonna let it shine"*. Let your Light shine.

I love you all,

Tim
