Tested By Fire

Sprinklers, limestone plaster, frame repellent window gel, and a hand-poured concrete basement. This is what Chris Arai used to withstand the fires. Wildfires have burnt thousands of California homes to the ground in recent years.

Engineer Chris Arai has spent more than 15 years fireproofing his Sonoma County home, outfitting it with a gas-powered sprinkler system, flame-repellent window gel, and a concrete basement he poured by hand. When the Kincaid Fire ripped through Arai's rural community last year, the engineer's home was the only one that survived the blaze.

Chris went to great lengths to fire-proof his home. While many scrambled as the wildfires crept closer, since he was well prepared, his home was able to withstand the fire that destroyed his neighbor's home.

How will the life you've built stand up to the fire that's coming when God tests the quality of what you've done?

1 Corinthians 3:11-13

For no one can lay any foundation other than the one already laid, which is Jesus Christ. If anyone builds on this foundation using gold, silver, costly stones, wood, hay or straw, their work will be shown for what it is, because the Day will bring it to light. It will be revealed with fire, and the fire will test the quality of each person's work.

I love you all,

Tim
