How Gross Is Your Toothbrush

Did you know that at any given moment more than 10 billion microbes are living on your toothbrush? The very instrument you use to clean your mouth is actually filthy. Everything from fecal matter to infected mucous and airborne viruses and germs are splashing on, landing on, and infiltrating the bristles, handle, and head of your trusty tool of oral hygiene.

Makes you want to go out and buy a supply of new toothbrushes, doesn't it? Shouldn't the instrument we use to cleanse our teeth be clean? What good is the act of brushing when it's done with an unclean toothbrush?

But when it comes to cleansing one's soul of sin, did you know that the very instrument most people want to use is their own human effort, and that is actually filthy as well?

Isaiah 64:6

We are all infected and impure with sin. When we display our righteous deeds, they are nothing but filthy rags. Like autumn leaves, we wither and fall, and our sins sweep us away like the wind.

Jesus is the only way to cleanse the filthiness of sin in our lives.

I love you all,

Tim
