Temporary Blindness

"Blinding Laser Weapons" are weapons that are designed to blind soldiers on the field of battle. Most countries adhere to international law to minimize the power of their lasers. China, however, instead of limiting the power of such weapons, took full advantage of the potential, developing the battery-powered ZM-87 Portable Laser Disturber. Its desired effect was to injure or dizzy the eyes of enemy combatants. By seeking to blind the enemy, they render them unable to fight.*

I've never thought much about the tactics of war, but it makes a lot of sense that a soldier doesn't have to be destroyed in order to be rendered useless. Blinding them is enough. Satan doesn't have to get rid of us to take us out of the battle. All he needs to do is render us useless by blinding us to the truth.

2 Corinthians 4:4

The god of this age has blinded the minds of unbelievers, so that they cannot see the light of the gospel that displays the glory of Christ, who is the image of God.

I love you all,

Tim
